

Open Anniversary

2021 Sponsorship Prospectus

About

In 2021, the open source movement will be celebrating several important milestones, including the 20th Anniversary of Wikipedia and Creative Commons, as well as the 30th Anniversary of Linux and the World Wide Web.

Celebrating Anniversaries is much more than just throwing a party. It is also an opportunity to look back in history, to reevaluate the mission and values, and to build a new future for an organization or community.

With that in mind, Open Anniversary aims to provide an innovative and inclusive platform for the community to celebrate, remember, and reimagine the open source movement.

Schedule

The 2021 Open Anniversary celebrations will revolve around 12 themes, one for each month of the year. A major milestone was selected for each theme. For example: the first month, January, will be dedicated to celebrating "Free Culture," when both Wikipedia and Creative Commons share their 20th Anniversary. The themes are presented below:

Free Culture

January 2021

20 years of Wikipedia and Creative Commons

On January 15, 2001, Wikipedia was established. Creative Commons was coincidentally established on the same date. Wikipedia was created by Jimmy Wales and Larry Sanger, while Creative Commons was founded by Lawrence Lessig, Hal Abelson, and Eric Eldred. Both Creative Commons and Wikipedia are highlights from the free culture movement.

February 2021

Open Source

The "open source" label was created by Christine Peterson at a strategy session held on February 3rd, 1998 in Palo Alto, California. That same month, the Open Source Initiative (OSI) was founded by Bruce Perens and Eric Raymond as a general educational and advocacy organization. The group adopted the Open Source Definition for open-source software, based on the Debian Free Software Guidelines.

Open Business

March 2021

The book "The Open Organization" published by Jim Whitehurst, former CEO at Red Hat and current president at IBM, provides great insights on how to build a successful business based on many open source principles, including transparency, participation, and community. Red Hat celebrates its anniversary in March—Bob Young founded ACC Corporation in March 1983 and the company was later renamed to Red Hat Software when merged with Marc Ewing's business.

April 2021

Open Government

15 years of the Sunlight Foundation

The Sunlight Foundation, a leading nonprofit that advocates for open government, was founded in April 2006 by Ellen S. Miller and Michael R. Klein. Open government is the governing doctrine which holds that citizens have the right to access the documents and proceedings of the government to allow for effective public oversight.

Open Knowledge

May 2021

25 years of Internet Archive, 20 years of Wayback Machine

The Internet Archive was founded by Brewster Kahle in May 1996 and the Wayback Machine was launched in 2001. The Internet Archive is a digital library with the stated mission of "universal access to all knowledge," providing free public access to collections of digitized materials, including websites, software applications, games, music, movies/videos, moving images, and books.

June 2021

Open Hardware

The Open Source Hardware Association (OSHW) was established as an organization in June 2012 by engineer Alicia Gibb, who had been working on the Open Hardware Summit. The OSHWA is a non-profit organization that advocates for open-source hardware.

July 2021

Open Education

Open Educational Resources (OER), one of the key components of Open Education, was first coined in July 2002 at UNESCO's Forum on Open Courseware. OER are teaching, learning and research materials in any medium – digital or otherwise – that reside in the public domain or have been released under an open license that permits no-cost access, use, adaptation and redistribution with no restrictions.

August 2021

Open Web

30 years of the first website

Tim Berners-Lee wrote a proposal to develop a distributed information system in March 1989, while working at CERN (European Organization for Nuclear Research). On August 6, 1991, he published the first website, dedicated to the World Wide Web project itself, and announced it on the Internet. In 1993, the World Wide Web project was made available with an open license, allowing the Open Web to flourish.

September 2021

Linux

30 years of Linux

On August 25, 1991, Linus Torvalds, then a 21-year-old university student from Finland, announced a project on the comp.os.minix user group. The initial release (version 0.0.1) was created on September 17, 1991, and the official public release happened on October 5, 1991. In January 1992, Linux adopted the GNU GPLv2 license. This "hobby project" would later become one of the most prominent examples of free and open-source software collaboration.

October 2021

Free Software

The Free Software Foundation (FSF) is a non-profit organization founded by Richard Stallman on October 4, 1985 to support the free software movement, which promotes the universal freedom to study, distribute, create, and modify computer software. The GNU General Public License was written in 1989 for use with programs released as part of the GNU project.

Open Access

November 2021

35 years of Aaron Swartz (in memory of)

Aaron Swartz was born November 8, 1986 and was one of the leading voices for open access. He published the "Guerilla Open Access Manifesto," helped launch the Progressive Change Campaign Committee, and founded the online group Demand Progress, known for its campaign against the Stop Online Piracy Act. His death was the result of years of disproportional prosecution from the government.

December 2021

Open Data

On December 7, 2007, a meeting held in Sebastopol, California, was designed to develop a set of principles of "open public data." Open data is data that can be freely used, re-used and redistributed by anyone - subject only, at most, to the requirement to attribute and sharealike.

Participation

For each of the 12 Anniversary themes, there will be a variety of activities, including webinars and community meetups (in compliance with local public health guidelines).

The prime attraction for each theme will be a collection of interactive timelines. For example, in January there will be the "Free Culture" timeline, featuring Wikipedia and Creative Commons.

Members of the community will be able to upvote milestones from the main timeline to highlight which ones they believe were most important. They will also be able to create and share their own personal timelines.

While each month will be focused on a theme, community members will be able to participate in activities and share timelines from each theme throughout the whole year.

All activities should adopt a code of conduct that contributes to an open, welcoming, diverse, inclusive, and healthy community. The Open Anniversary platform itself will be adopting the Contributor Covenant, version 2.0 code of conduct.

Sponsorship

Companies from around the world are invited to be part of the celebrations by sponsoring one or more Anniversary themes. Sponsorship values range from \$250 to \$1000, valid for the whole year of 2021. Companies sponsoring all 12 themes receive a 20% discount. Sponsorships will be transparently managed by fiscal host Open Source Collective 501(c)(6).

Bronze Sponsor: \$250

- Small logo image displayed on the Anniversary theme page;
- Company timeline featured on the theme page (when selected).

Silver Sponsor: \$500

- Medium logo image displayed on the Anniversary theme page;
- Company timeline featured on the theme page (when selected);
- Activities promoted by the company are highlighted.

Gold Sponsor: \$1000

- Large logo image displayed on the Anniversary theme page;
- Company timeline featured on the theme page (when selected);
- Activities promoted by the company are highlighted;
- Company name displayed on the weekly newsletter.

Open Anniversary 2021 Sponsorship Form

The 2021 Open Anniversary celebrations will revolve around 12 themes, one for each month of the year. While each month will be focused on a theme, community members will be able to participate in activities and share timelines from each theme throughout the whole year. The logo from sponsors will be displayed on the Anniversary theme for the full year of 2021, and their timelines and activities will also be highlighted on the platform throughout the year. Please select below the themes your company would be interested in sponsoring:

| Themes | Bronze | Silver | Gold |
|-----------------|--------------------------|--------------------------|--------------------------|
| Free Culture | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Source | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Business | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Government | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Knowledge | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Hardware | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Education | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Web | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Linux | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Free Software | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Access | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Open Data | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
